SUMMARY

Web Engineer skilled in both front end and back end web programming with fourteen years background in higher education and thirty years in music performance. Integrity, dependability, work ethic, and collaboration are what I attribute to my career-long employer and client relationships. I enjoy working creatively and pragmatically in user interface and application design. In all aspects of Web Development such as Server-side Deployment, UI/UX design, JavaScript, and Databases, my mission is to deliver strong, dependable work in any role.

TECHNICAL SKILLS

Languages: JavaScript, ReactJS, JQuery, CSS, HTML, Python
Applications: Node.js, MySQL, MongoDB, Git, Materialize, Bootstrap, Visual Studio Code
